

PLACE YOUR HEEL HERE

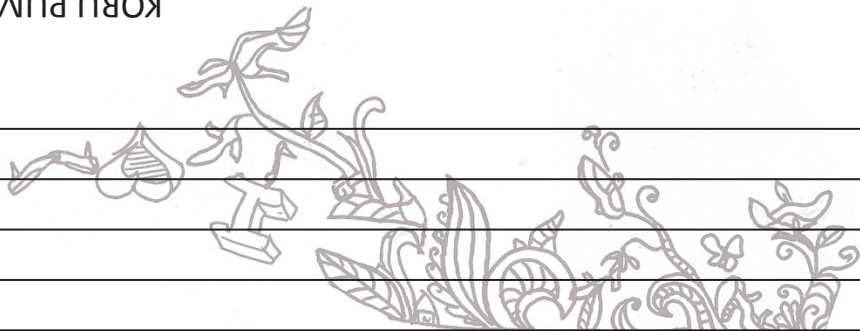

The heel is the boney part in the pad at the back of your foot. When placing your heel in the sizing guide, ensure you are not only measuring the parts of your foot that touch the floor. (if it helps, place a pencil at the back of your heel and ensure the tip of the pencil touches the back of the heel guide.)

One foot is always larger than the other, so measure both feet and opt for the larger size

****THINGS TO REMEMBER WHEN MEASURING YOUR FEET****

KORU PUMP

36 - 237mm

37 - 244mm

38 - 250mm

39 - 257mm

40 - 264mm
